Objective

Second-year Computer Science Engineering student at MANIT Bhopal with a passion for solving real-world problems through efficient web and software development. Seeking opportunities to apply and grow my expertise.

Skills

- **Programming Languages:** C, C++, Java, JavaScript
- **Web Development:** HTML, CSS, React, Node.js, Express
- **Database Management:** MongoDB, SQL
- **Android Development:** Java, XML
- **Tools:** VS Code, IntelliJ IDEA, Postman, Firebase, Git, Github, Figma
- **Specializations:** MERN Stack, JWT, bcrypt, REST APIs

Projects

- **InvenTrack** - Inventory Management System
  - Technologies: Node.js, Express, MySQL, JWT, bcrypt
  - Developed a full-stack system for managing inventory with secure authentication.
- **Quizzy** - Interactive Quiz Platform
  - Technologies: HTML, CSS, JavaScript
  - Created a quiz website with real-time feedback; won 3rd place in the SpriteEra UI contest.
- **Tidy Track** - Campus Issue Tracker App
  - Technologies: Java, XML, Volley
  - Designed and implemented an app for streamlining issue reporting at MANIT.
- **NetSeries** - OTT-style Movie Information Site
  - Technologies: HTML, CSS, JavaScript
  - Integrated TMDB API for dynamic content updates showcasing movies and TV shows.

Education

- **B.Tech in Computer Science and Engineering** - MANIT, Bhopal (2023 – 2027)
- **12th (CBSE Board)** - RD Public School, Betul (91.4%)

Achievements

- Secured 3rd place in SpriteEra Frontend UI Contest.
- Built multiple user-focused apps demonstrating real-world impact.
